WELCOME TO PARODYSE!

This issues theme (pardon the egotism) is that most venerable but misunderstood humorous tradition, parody. Ever since the first hominid comic got up to express his envy and admiration for the tribal bully by mocking the way he walked, parody has been a valiant method of pointing out the flaws, the stuffiness, face it, sometimes the very "isness" of those things we treasure most.

With that in mind, I'd just like to say that any resemblence to persons living or dead, factual or fictional, in intended as parody or satire, is not intended to convey their character or damage same, but is intended as a loving tribute to the artists who have proceeded us down the road to fame.

Now, put down that lawyer or I swear I'll jump.

I mean it.
